

# Child Support Calculation Worksheet

(may be printed to 8 1/2 x 11" paper)

(This chart presumes that the primary residency of the child/ren is with a single parent, and that the child resided with the custodial parent more than 255 days of the year. Correctly filling out and following the directions will provide the presumptive amount of child support called for under the [Code of Virginia](#); this is not the amount that a judge will necessarily set. All figures must be stated in monthly terms in order for charts to provide correct result.)

		A	B	C
	Monthly <b>Gross Income</b> of the Parties:	<u>Mother</u>	<u>Father</u>	<u>Comb'nd</u>
1	<b>Wages from employment</b>	\$	\$	
2	<b>Other sources of income</b>	\$	\$	
3	<b>Spousal Support paid or received</b> (deducted from payors column; added to payees column)	\$	\$	
4	<b>Total</b> (1+2+3) or (1+2-3) (see 3 above) (Put combined total in C)	\$	\$	\$
5	<b>Percentage of each parents income to total income</b> (A4/F4 for mother; B5/F4 for father)	%	%	
	<b>Child Support Calculation:</b>			
6	<b>Basic Monthly Child Support Obligation</b> (obtain closest figure from <a href="#">chart</a> , using combined income figure C4 and number of children of the parties to be supported)			\$
7	<b>Extraordinary <u>Medical</u> Expenses</b> (monthly)			\$
8	<b><u>Child Care</u> Expenses</b> (monthly)			\$
9	<b><u>Health Insurance</u> Exp</b> (monthly, only children's portion of premium)			\$
10	<b>Total Combined Child Support Obligation</b> (6+7+8+9)			\$
11	<b>Each Parent's Presumptive Share</b> (C10 x B5 for mother; C10 x C5 for father)	\$	\$	
12	Insert same figure as C9 in column of parent who pays Health Insurance premium. Subtract this amount.	\$	\$	
13	<b>Guideline Monthly Child Support Amount</b> (11 minus 12) (to be paid by non-custodial parent to custodial parent)	\$	\$
